

**(A) Anti-beta-amyloid binding agent**

**(1)** Hexafluronium  
Malathion  
Echothiophate

**(2)** Tubocurarine  
Gallamine Triethiodide

**(3)** Isoflurophate  
Edrophonium Galantamine  
Ambenonium Tacrine  
Pyridostigmine Demecarium  
Donepezil Rivastigmine  
Neostigmine Physostigmine

**(4)** Amobarbital Pentobarbital  
Phenobarbital Thiopental  
Butabarbital Talbutal  
Heptabarbital Metharbital  
Aprobarbital Primidone  
Hexobarbital Secobarbital  
Butethal Methylphenobarbital  
Butalbital

**(B) Pro-beta-amyloid binding agent**  
Pralidoxime  
Dipivefrin

**(5)** Varenicline  
Nicotine

**(C) Anti-tau protein binding agent**  
Vorinostat

**(D) Anti-tau-protein kinase activity agent**  
Lithium

**(E) Anti-amyloid precursor protein biosynthetic process agent**  
Hesperetin  
Ezetimibe
